# 2019 Community Profile

## From the Regional Vice President

Welcome to The Valley Health System, an integrated system of care comprised of seven hospitals, physician practices and a variety of outpatient services. We are proud to be the provider of choice for our friends and neighbors in Southern Nevada. Our hospitals have served the community for more than 40 years and our goal is to always make our hospitals your number-one choice. Whether it's helping deliver a new addition to your family, performing a life-saving procedure or providing ongoing care throughout your recovery, we appreciate the opportunity to serve you.

We are continually growing to meet the needs of the residents we are privileged to serve. In 2018, we celebrated these notable milestones: the second anniversary of Henderson Hospital, the 10-year anniversary of Centennial Hills Hospital and the 15-year anniversary of Spring Valley Hospital. We also opened our first freestanding emergency center, The ER at Green Valley Ranch, which is an extension of Henderson Hospital's emergency department. We also broke ground on Spring Valley Hospital's freestanding emergency center, the ER at Blue Diamond, which opens July 2019.

Our hospitals are training the next generation of healthcare providers through our Graduate Medical Education program. Recently, The Valley Health System was approved for a General Surgery Residency program by the Accreditation Council for Graduate Medical Education. Along with a focus on primary care physicians, we're adding residencies for various specialties to meet our community's needs. Our hospitals also serve as clinical rotation sites for nursing students, and our employees serve as mentors and role models to these future healthcare professionals.

The Valley Health System's team of 9,042 employees is dedicated to providing a positive experience at each of our facilities. They also volunteer their time and expertise to support many local non-profit agencies and donate money to support causes such as the American Heart Association® and the United Way of Southern Nevada.

This year, we're especially excited to be the Official Health System of the Vegas Golden Knights™. The Golden Knights made an incredible impact on the community during their NHL inaugural season and we're excited to be part of their extended family. Additionally, we are honored to be the Official Founding Healthcare Partner of the Las Vegas Aviators as they launch their inaugural season at their new home The Las Vegas Ballpark.

I am proud of our employees and the care they provide to the thousands of residents and tourists throughout Southern Nevada every year. Our Community Profile highlights the many ways The Valley Health System has enhanced its services and provides quality care to the residents in our community. I invite you to take some time to discover The Valley Health System.

Karla J. Perez  
Regional Vice President, Acute Care Division

# Discover THE VALLEY HEALTH SYSTEM

Since 1979, The Valley Health System has been providing care to the residents of Southern Nevada and the surrounding communities. The Valley Health System is the largest healthcare system in Southern Nevada with a network of seven acute care hospitals, physician practices and a variety of outpatient services.

## Valley Health System Overview and History

The Valley Health System is the largest healthcare network serving Southern Nevada and has earned a reputation for excellence in providing quality healthcare to residents. The Valley Health System offers comprehensive medical services, including cardiovascular, maternity and women's health, emergency and surgical care, along with specialty programs in chest pain, pediatrics, diabetes, wound care, bariatric surgery, orthopedics, neurosurgery, rehabilitation and behavioral health.

The system achieved significant milestones in 2018, including:

- The completion and opening of the ER at Green Valley Ranch, an extension of Henderson Hospital; this is the first freestanding Emergency Department for The Valley Health System.
- Henderson Hospital opened a new Level II Neonatal Intensive Care Unit (NICU) and completed a 28-bed expansion of its 3rd floor.
- Centennial Hills Hospital celebrated its 10-year anniversary.
- Summerlin Hospital added a 36-bed adult oncology unit and completed renovations and updates to its Level III NICU and Labor and Delivery unit.
- Spring Valley Hospital broke ground on a new freestanding Emergency Department. The ER at Blue Diamond, an extension of Spring Valley Hospital, will operate 24 hours a day and will feature eight treatment rooms, an additional three rapid medical exam rooms, advanced imaging services such as CT, ultrasound and X-ray and an on-site laboratory.
- Spring Valley Hospital celebrated its 15-year anniversary.
- Valley Hospital completed construction on two new replacement cardiac catheterization labs that offer advanced technology in electrophysiology and interventional cardiology procedures.
- Valley Hospital added a second interventional radiology lab to treat emergent patients much faster with advanced technology aimed at delivering exceptional neurological care.
- Valley Hospital's third floor expansion project added 18 large private patient rooms for both IMC and medical surgical levels of care.
- Desert Springs Hospital added Pulmonary Rehab to its list of services.

### DEDICATED TO SERVING MORE PATIENTS WITH HIGH QUALITY CARE

The Valley Health System increased its capacity to serve more patients with 1,848 beds, 40% of the patient beds in the market.

The Valley Health System provides community outreach programs to the region, including educational programs, Senior Advantage for older adults and fun, interactive health programs dedicated to families. Visit [valleyhealthsystemlv.com](http://valleyhealthsystemlv.com) for information on our health and wellness programs for individuals of all ages.

The Valley Health System is owned and operated by a subsidiary of Universal Health Services, Inc. (UHS). Headquartered in King of Prussia, Pennsylvania, UHS is one of the largest and most innovative healthcare management companies in the nation.

# The Valley Health System Boosts Local Economy in 2018

The Valley Health System is proud to contribute to the health of the community and boost the local economy. Our numbers tell our story – we are the largest provider of healthcare services in Southern Nevada. As an esteemed employer, The Valley Health System offers a wide range of rewarding career opportunities, as well as educational support and training for the next generation of healthcare providers, including physicians, nurses, therapists and others in the allied health science programs.

### REFERRAL AND REGISTRATION CENTER

Whether patients need to find a primary care physician or a specialist, the Referral and Registration Center provides free physician referrals. Patients can also get information about services at Valley Health System hospitals, facilities, events and more. A call to **702-388-4888** or a visit to **www.valleyhealthsystemlv.com** is all it takes.

## Your Prescription for Convenience

CentRx retail pharmacies at Centennial Hills Hospital, Desert Springs Hospital, Spring Valley Hospital and Summerlin Hospital provide convenience for patients, hospital employees and staff, and the community.

Patients admitted to the hospital are offered free bedside delivery of prescription medications upon discharge. The pharmacies also carry over-the-counter (OTC) products, such as diabetic supplies, cough and cold products, first-aid supplies, beauty items and more. The CentRx Pharmacy page on each hospital's website enables users to request refills online.

# Centennial Hills HOSPITAL MEDICAL CENTER

## About Centennial Hills Hospital Medical Center

Centennial Hills Hospital Medical Center celebrated its 10th anniversary in 2018. The hospital is an eight story, 262-bed building in the northwest, serving both the Las Vegas and North Las Vegas communities.

We are committed to providing quality care, including maternity, cardiology, critical and 24/7 emergency care. Centennial Hills Hospital Medical Center also takes a progressive approach to health promotion and was the first tobacco-free hospital campus in Nevada.

## Dedicated to the Community

Centennial Hills Hospital Medical Center supports a number of nonprofit organizations including the American Heart Association®, March of Dimes®, United Way of Southern Nevada and the YMCA® of Southern Nevada. Employees also volunteer their time to benefit a wide range of healthcare, civic and community-based organizations.

## Community Involvement

Centennial Hills Hospital Medical Center offers annual health fairs in Northwest Las Vegas. During these events, visitors take advantage of free screenings, which may include cholesterol, glucose, bone density and child obesity screenings. The hospital also offers an annual free Teddy Bear Clinic, which helps to educate kids about what happens in the facility. Wellness education and information are also available.

## Education

Centennial Hills Hospital helps educate the next generation of nurses in the Las Vegas area. Nurses at Centennial Hills Hospital mentor the nursing students, teaching them both clinical skills and caring practices as they work with patients.

Centennial Hills Hospital offers the community comprehensive classes in childbirth education and CPR. The hospital also hosts adult health and wellness luncheons for the community to learn more about living a healthy lifestyle.

# Centennial Hills Hospital Boosts *Local Economy in 2018*

Centennial Hills Hospital is proud to contribute to the health of the community and boost the local economy. Our numbers tell our story – we are a leader in medical care serving a large portion of the community we serve and performing a significant number of newer and highly sophisticated procedures. As a local employer, Centennial Hills Hospital offers rewarding career opportunities.

## Centennial Hill Hospital 2018 Milestones

Centennial Hills Hospital celebrated its 10-year anniversary with a community celebration that included free health screenings, children's activities and photo opportunities with local dignitaries.

Also in 2018, the hospital acquired the da Vinci® Xi™ Robotic Surgical System.\* The new da Vinci system allows surgeons to utilize the robotic system for minimally invasive, complex, multi-quadrant surgery and simple single-quadrant surgery. Because the system uses smaller incisions, patients may experience less pain and blood loss, shorter hospital stays and quicker recoveries.

Centennial Hills Hospital also completed construction on its MRI replacement project. The new Siemens® 1.5T Magnet MRI provides a more efficient workflow and higher-quality imaging in a shorter time period.

\* Individual results may vary.

## Centennial Hills Hospital Specialty Services

### Emergency Department

The Centennial Hills Hospital emergency department is designated as a Chest Pain Center with PCI by the Society of Cardiovascular Patient Care, and a Primary Stroke Center by The Joint Commission. The hospital offers a fast track for minor injury or illness. Centennial Hills Hospital makes ER care easier, thanks to ER wait times online and ER Reserve\*, which allows patients to request a time in the ER up to 12 hours in advance if they have a non-life-threatening injury or illness. Then they can wait in the comfort of their home until the requested time.

### Neurosciences/The Stroke Center

Accredited as an Advanced Primary Stroke Center by The Joint Commission, Centennial Hills Hospital provides a comprehensive program supported by both neurologists and neurosurgeons. The Stroke Center offers patients a range of specially designed services and treatment programs that focus on education, prevention, intervention and active stroke management through a multidisciplinary medical team. The facility also is the first hospital to offer neuro-interventional services in the northwest to treat patients with aneurysm and other advanced neurological conditions.

### Orthopedics

The orthopedic staff at Centennial Hills Hospital provide comprehensive care for total knee and hip replacement, spinal surgery, sports medicine and other orthopedic procedures. The hospital has a dedicated nursing unit for postoperative care and is supported by a dedicated orthopedic nurse practitioner.

### Surgical Specialties

Centennial Hills Hospital is the first hospital in the city to have the Stryker Makoplasty® robot to perform advanced total hip and partial knee procedures. The facility also has the only Medtronic O-arm in the state to help provide real-time intraoperative imaging for complicated neurosurgical and spine cases. Additionally, the facility uses the da Vinci® Xi surgical system to support advanced, robot-assisted surgery for gynecology, urology and general surgery procedures.

### Women's and Children's Services

The hospital has a comprehensive program including 37 postpartum beds, 10 labor and delivery beds, two C-section suites and a 15-bed Level II/III NICU services unit. The hospital also supports midwife deliveries, and offers childbirth and parenting classes.

### Wound Care

This center provides outpatient services for patients with non-healing wounds, offering a variety of treatment services including hyperbaric oxygen therapy.

\*ER Reserve should be used only if you decide your care can wait until the time you select. Do not wait if your symptoms or conditions worsen or if you need immediate care immediately since delays may complicate your condition. If you are unsure of your condition or if your condition worsens, then please go to the nearest emergency room or call 9-1-1.

Some insurance plans may not cover an ER visit if it is deemed urgent care or may apply a different copay. Please check your covered benefits with your insurance provider for details.

# Desert Springs HOSPITAL MEDICAL CENTER

## About Desert Springs Hospital Medical Center

Desert Springs Hospital Medical Center opened in 1971 and provides 24-hour emergency services. It features a designated area in the emergency department to treat patients with less serious injuries and illnesses. The hospital has long been referred to as “The Heart Hospital” by residents, due to its solid reputation as a leader in cardiac care. The hospital is nationally recognized for its diabetes, cardiac, stroke and bariatric surgery programs.

Desert Springs Hospital offers specialty geropsychiatric services. The dedicated unit has 32 beds for seniors, ages 55 and older. In addition, the hospital has a 12-bed inpatient acute rehabilitation unit for patients recovering from stroke, surgery or a variety of injuries. Our outpatient cardiac and pulmonary rehabilitation programs are for patients recovering from severe cardiac events or chronic lung diseases.

At Desert Springs Hospital ER care is easier thanks to ER wait times online and ER Reserve\* that allows patients to request a time in the ER up to 12 hours in advance if they have a non-life-threatening injury or illness. Then they can wait in the comfort of their home until the requested time.

## Dedicated to the Community

Desert Springs Hospital Medical Center supports a number of nonprofit organizations, including American Heart Association®, United Way of Southern Nevada, American Diabetes Association®, Henderson Chamber of Commerce, Las Vegas Chamber of Commerce and Nevada Diabetes Association. Employees also volunteer their time to benefit a wide range of healthcare, civic and community-based organizations. As part of its quarterly Service Excellence celebration, the hospital selects a local charity to support.

## Community Involvement

Desert Springs Hospital offers an annual Diabetes Health Fair. Thousands of community residents attend and receive free screenings and health, wellness and diabetes information.

## Education

Desert Springs Hospital is committed to educating the community about a variety of health issues. The hospital’s initiatives include its inpatient and outpatient Nutrition and Wellness programs for diabetics. Other programs are in place, such as bariatric education, and support groups for those with weight-loss issues and those who have had a stroke.

\*ER Reserve should be used only if you decide your care can wait until the time you select. Do not wait if your symptoms or conditions worsen or if you need immediate care since delays may complicate your condition. ## Desert Springs Hospital 2018 Milestones

Desert Springs Hospital added specialized pulmonary rehabilitation to its list of services in 2018. This specialized program assists people with severe and/or chronic lung disease. With education, exercise and support we help patients achieve the highest level of recovery possible.

In addition, Desert Springs Hospital performed the first Atrial Fibrillation procedure in Nevada utilizing the Abbott Advisor HD Grid Diagnostic Mapping Catheter. The technology provides 16 electrode bi-directional mapping and allows for the collection of data within the heart's chambers from all angles.

## Desert Springs Hospital Specialty Services

### Cardiac Care Institute

The Cardiac Care Institute features open-heart surgery and peripheral vascular services. The Chest Pain Observation Unit was the first in Nevada to be nationally recognized by the Society of Chest Pain Centers.

Desert Springs Hospital's complete cardiovascular services include a cardio-pulmonary laboratory, three catheterization labs, tilt table technology, cardiac surgery, inpatient cardiac rehabilitation and the Cardiac Progressive Care Unit — a dedicated care unit for cardiac patients.

The hospital's electrophysiology lab is home to the region's first Stereotaxic Epoch™ Solution for cardiac ablation procedures.

### Center for Surgical Weight Loss\*

Desert Springs Hospital offers gastric sleeve and bypass procedures, as well as education and support groups. The Center has been designated as a fully accredited Bariatric Center by the Metabolic and Bariatric Surgery Accreditation and Quality Improvement Program (MBSAQIP). The hospital offers support through the entire weight-loss surgery process, from pre-op education to post-op support.

### Diabetes Treatment Center

Nationally Recognized by the American Diabetes Association and the American Association of Diabetes Educators, the Diabetes Treatment Center can help adults with all types of diabetes. The Center offers comprehensive inpatient and outpatient care, education and treatment.

Providing services in English and Spanish, the Center's programs include diabetes self-management education, gestational diabetes education, continuous glucose monitoring and acute care during hospitalization.

Desert Springs Hospital's program was the first inpatient diabetes program in the United States to earn a Certificate of Distinction for Advanced Inpatient Diabetes Care from The Joint Commission.

### Surgical Specialties

Desert Springs Hospital offers a range of surgical specialties, including open-heart, orthopedics, spine, colorectal, urology, and general surgery, breast, bariatric, thoracic and vascular procedures. Following surgery, patients recover in a post-surgical unit where specialty trained nurses assist them in their recovery.

### Wound Care

The hospital offers advanced wound care and hyperbaric medicine to patients with non-healing wounds. Highly skilled medical professionals investigate, analyze and then develop an individualized treatment plan for wound healing.

\*Individual results may vary. There are risks associated with any surgical procedure. Talk with your doctor about these risks to find out if bariatric surgery is right for you.

# Henderson HOSPITAL MEDICAL CENTER

Henderson Hospital is the sixth acute care hospital in The Valley Health System. The 166-bed facility offers area residents comprehensive medical and surgical services, including specialties in emergency care, childbirth services, orthopedics, advanced wound care and cardiac care.

Henderson Hospital makes ER care easier thanks to ER wait times online and ER Reserve\* that allow patients to request a time in the ER up to 12 hours in advance if they have a non life-threatening injury or illness.

## Henderson Hospital Features

Emergency services are offered 24/7 and include fast triage for non-life-threatening urgent care. Patients can turn to Henderson Hospital for inpatient and outpatient general surgery.

Women's and children's services include maternity care, a nursery for new arrivals and a new eight bed Level II Neonatal Intensive Care Unit (NICU) to care for the hospital's smallest patients.

Cardiology services are offered, as well as radiology, laboratory services, respiratory services and an inpatient pharmacy.

Henderson Hospital is the first hospital in The Valley Health System to operate a freestanding emergency department. ER at Green Valley Ranch is an extension of Henderson Hospital and is located at 2581 Saint Rose Parkway. The facility is open 24 hours a day and features eight treatment rooms and three rapid exam rooms, along with advanced diagnostic and imaging, CT, ultrasound and X-ray equipment. Board-certified emergency medicine physicians and emergency-trained nurses staff the center.

## Committed to Sustainability

The new Henderson Hospital incorporates 100 percent LED technology for lighting. Compared to traditional energy efficient fluorescent lighting, the new technology results in a 50 percent savings for light energy. This results in an annual savings of over 700,000 kilowatt-hours, eliminating over one million pounds of greenhouse gases and more than \$700,000 on the annual electricity bill.

\*ER Reserve should be used only if you decide your care can wait until the time you select. Do not wait if your symptoms or conditions worsen or if you need immediate care since delays may complicate your condition. ## Henderson Hospital 2018 Milestones

Henderson Hospital opened The Valley Health System's first freestanding emergency center, ER at Green Valley Ranch. The new facility is open 24 hours a day and is staffed with board-certified emergency physicians and emergency-trained nurses.

In addition, the hospital added a Level II Neonatal Intensive Care Unit (NICU) to its list of maternity services and opened an Advanced Wound Care Center, located in the Medical Office Building, featuring four treatment rooms and two hyperbaric oxygen chambers.

In 2018, Henderson Hospital became the first acute care facility in Nevada with new radio frequency breast care technology LOCalizer. The technology helps localize the area of removal during breast lumpectomy procedures, eliminating the need for needle localization for patients.

Henderson Hospital also opened 28 beds and a new gym on the third floor to accommodate orthopedic patients.

## Henderson Hospital Specialty Services

### Cardiovascular Services

Henderson Hospital provides cardiovascular care for patients on an emergency and non-emergency basis. The cardiac catheterization lab offers advanced technology to help diagnose and treat heart disease. Certified by the American College of Cardiology as an Accredited Chest Pain Center with percutaneous coronary intervention (PCI), the hospital is equipped to deliver rapid treatment to patients with signs of possible heart attack.

### Neurology/Stroke Services

The neurology staff at Henderson Hospital is specially trained to treat patients with symptoms of possible stroke — when minutes matter. The hospital received the 2018 American Heart Association®/American Stroke Association® Silver Plus Stroke Award in recognition for meeting strict national standards in stroke care.

### Orthopedics

The orthopedic professionals at Henderson Hospital provide a spectrum of care, including total knee and hip replacement, spinal surgery, sports medicine, minimally invasive surgical options and more. The hospital earned certificates of The Joint Commission's Gold Seal of Approval® in Joint Replacement Hip and Knee.

### Women's and Children's Services

The Birthplace is the star of the hospital's Women's and Children's Services department. The maternity unit features intimate labor/delivery and recovery suites, a family-centered atmosphere and Level I/Level II nurseries for our tiniest patients in need of extra special care. Henderson Hospital also offers childbirth and parenting classes.

### Wound Care

The Wound Care and Hyperbaric Center at Henderson Hospital provides outpatient services for patients with non-healing wounds. The Center offers a variety of treatment options, including hyperbaric oxygen therapy (HBOT).

# Spring Valley Hospital Boosts Local Economy in 2018

## Spring Valley HOSPITAL MEDICAL CENTER

### About Spring Valley Hospital Medical Center

In 2018, Spring Valley Hospital Medical Center celebrated its 15th anniversary. We are proud to have grown alongside our community. The hospital has developed comprehensive services to meet the needs of area residents and visitors. This includes 24-hour emergency services, cardiology services with open-heart surgery, maternity services, inpatient and outpatient rehabilitation, surgical services with the latest robotic technology, a neuro/stroke program with neurosurgery and an advanced wound care center with hyperbaric treatment.

Spring Valley Hospital was the first hospital in southwest Las Vegas to become a certified Chest Pain Center and an Advanced Primary Stroke Center. We are also the only hospital in southwest Las Vegas to offer a Level III NICU, neuro-coiling and thrombectomy for large vessel occlusion, a limb salvage program and an inpatient acute rehabilitation program. We are also proud to be The Valley Health System's first and only facility with a hybrid OR and TAVR program.

### Dedicated to the Community

Spring Valley Hospital Medical Center supports a number of nonprofit organizations, including the American Heart Association®, United Way of Southern Nevada, American Diabetes Association® and the American Lung Association®.

### Community Involvement

The hospital maintains membership in the Las Vegas Asian Chamber of Commerce, recognizing its important role in supporting diversity in our community. Employees also volunteer their time to benefit a wide range of healthcare, civic and community-based organizations.

Spring Valley Hospital partners with the community to support events such as Summer Family Movie Nights at Town Square, Mountain's Edge Monthly Community Gatherings and Spanish Trails National Night Out. We also partner with the American Heart Association to provide free blood pressure checks to employees of local businesses such as Boyd Gaming, Scientific Games Corporation, Brown and Brown Insurance of Nevada, Brownstein Hyatt Farber & Schreck, and more.

### Education

Spring Valley Hospital offers a Living with Heart Disease support group, comprehensive childbirth education, and adult health and wellness luncheons to educate the community.

Affiliation agreements with UNLV and the College of Southern Nevada.

Spring Valley Hospital is proud to contribute to the health of the community and boost the local economy. Our numbers tell our story – we are a leader in medical care serving a large portion of the community we serve and performing a significant number of newer and highly sophisticated procedures. As a local employer, Spring Valley Hospital offers rewarding career opportunities.

## Spring Valley Hospital 2018 Milestones

Spring Valley Hospital celebrated its 15-year anniversary of caring for the community and Las Vegas visitors.

Since it opened in 2003, the hospital has continued to grow and expand. In 2018, ground was broken for its newest addition, a freestanding emergency department, ER at Blue Diamond. The facility is located at Blue Diamond and Cimarron and will operate 24 hours a day. It will feature eight treatment rooms, with an additional three rapid medical exam rooms, advanced imaging services such as CT, ultrasound and X-ray and an on-site laboratory.

Spring Valley Hospital also completed construction on a new patient care unit, adding 36 private rooms to the third floor dedicated to orthopedic and spine surgery patients. An additional 36 rooms were completed on the fourth floor, bringing the total bed count to 364.

In addition, Spring Valley Hospital's Advanced Wound Care and Hyperbaric Center received the distinguished Center of the Year award for the West zone from Healogics®, Inc. The hospital also earned The Joint Commission's Gold Seal of Approval® for Core Certification for Total Hip and Total Knee Replacement and Sepsis in 2018.

## Spring Valley Hospital Specialty Services

In addition to offering cardiac services with open-heart surgery and a hybrid OR, Spring Valley Hospital is home to the Birthplace with a separate entrance for expectant mothers and the only Level III NICU in southwest Las Vegas. Other specialty services include:

### Emergency Department

Spring Valley Hospital is designated as a Chest Pain Center with PCI by the American College of Cardiology, and a Primary Stroke Center by the American Heart Association®. The hospital offers a fast track for minor illness and injury. Spring Valley Hospital makes ER care easier thanks to ER wait times online and ER Reserve\* that allows patients to request a time in the ER up to 12 hours in advance if they have a non-life-threatening injury or illness. Then they can wait in the comfort of their home until the requested time.

Watch for the opening of the new Spring Valley Hospital freestanding emergency department, ER at Blue Diamond in 2019. Located at Blue Diamond and Cimarron in the Southwest, the 24-hour facility will feature eight treatment rooms and will operate as an extension of Spring Valley Hospital's emergency department.

Accredited as an Advanced Primary Stroke Center, Spring Valley Hospital's Neurosurgeons and Interventional Radiologists have the ability to perform complex neurosurgery and endovascular procedures. The biplane angiography suites are used to treat intracranial aneurysms and carotid disease. The Center offers neurocoiling comprehensive neuroscience services.

The Stroke Center offers patients a range of specially designed services and treatment programs that focus on prevention and intervention, education, active stroke management by a multidisciplinary medical team and rehabilitation.

### Surgical Specialties

Open-heart surgery is performed in surgical suites specially designed to provide surgical teams with the most ideal environment possible. Spring Valley Hospital uses advanced robotic surgery technology with the da Vinci® Xi HD™ Surgical System, with Single-Site® surgery available for gynecology, urology, prostate and general surgery.

\*ER Reserve should be used only if you decide your care can wait until the time you select. Do not wait if your symptoms or conditions worsen or if you need immediate care since delays may complicate your condition. If you are unsure of your condition or if your condition worsens, then please go to the nearest emergency room or call 9-1-1. Some insurance plans may not cover an ER visit if it is deemed urgent care or may apply a different copay. Please check your covered benefits with your insurance provider for details.

# Summerlin HOSPITAL MEDICAL CENTER

## About Summerlin Hospital Medical Center

Located in a premier master-planned community, Summerlin Hospital Medical Center is one of the largest and most comprehensive healthcare facilities in southern Nevada. Serving the community for more than 20 years, the hospital provides residents with the services of The Cancer Center, The Children's Medical Center, The Heart Center and the BirthPlace for Women and Children, and Summerlin Hospital's Robotic Surgery Center, featuring the da Vinci® Xi Surgical Systems. These services and others represent our continuing pursuit of medical innovation.

## Dedicated to the Community

Summerlin Hospital Medical Center supports a number of nonprofit organizations, including the American Heart Association®, United Way of Southern Nevada, March of Dimes®, Nevada Childhood Cancer Foundation, Candlelighters™ Cancer Foundation, Nevada Hospital Association and American Lung Association, and the hospital works with several local oncology support groups.

Employees also volunteer their time to benefit a wide range of healthcare, civic and community-based organizations.

## Community Involvement

Summerlin Hospital offers an annual Cancer Fair that includes free health screenings and wellness education. The hospital also hosts a free Teddy Bear Clinic each year for school-age children. The Teddy Bear Clinic is designed to help educate kids about what happens in the hospital.

## Education

The FamilyPlace provides the community with comprehensive childbirth education, as well as health and wellness lectures.

# Summerlin Hospital Boosts *Local Economy in 2018*

Summerlin Hospital is proud to contribute to the health of the community and boost the local economy. ## Summerlin Hospital 2018 Milestones

Summerlin Hospital opened a new 36-bed adult oncology unit, featuring large, private patient rooms in a calm and tranquil setting.

In 2018, Summerlin Hospital completed a 17-bed renovation in its Level III NICU. Enhancements include natural landscape images for a calming presence. Construction was also completed on the third C-section suite, an expanded triage area and a newly renovated labor and delivery unit.

Summerlin Hospital added Blue Light Cystoscopy technology to its oncology services that helps to significantly increase the detection rate of bladder cancer cells. In addition, Summerlin Hospital implemented a Fecal Microbiota Transplant program to assist individuals suffering from C. difficile. Summerlin Hospital also added Manometry services to its Endoscopy suite of services.

## Summerlin Hospital Specialty Services

### Cardiovascular Services

Summerlin Hospital offers a range of advanced cardiovascular services including surgery for patients who need specialized interventional cardiac procedures or open-heart surgery. The hospital's Electrophysiology Lab enables cardiac specialists to identify arrhythmia and heart disturbances and perform radiofrequency ablations to help faulty electrical signals in the heart. Summerlin Hospital has a dedicated cardiac rehabilitation program to help patients recover following surgery.

### Children's Medical Center at Summerlin Hospital

The renowned Children's Medical Center at Summerlin Hospital provides advanced care to infants, children, adolescents and teenagers from all over the Las Vegas Valley. Along with the general Pediatric Unit, the Pediatric Intensive Care Unit and Pediatric ER, the Medical Center provides a broad array of advanced services — close to home.

The unit features an animal theme with custom artwork in each of the unit's 45 private patient suites depicting a different animal for each patient room. The Children's Medical Center also provides a Level III Neonatal Intensive Care Unit (NICU) with advanced technology to care for the tiniest patients.

### Emergency Department

Summerlin Hospital is a nationally accredited Chest Pain Center with PCI by the American College of Cardiology.

The emergency department is designed for air ambulance services, with a helipad located just steps from the emergency room. Summerlin Hospital also practices Early Heart Attack Care (EHAC). The department is home to a dedicated Pediatric ER with a separate entrance.

ER Just Got Easier at Summerlin Hospital. Wait times are available online and ER Reserve\* is available so patients can request a time in the ER for non-life-threatening illness and injury.

### Oncology Services

Summerlin Hospital's Cancer Center provides compassionate, patient and family-centered care, from a staff dedicated to providing advanced cancer treatment and support services. Adults and children who have cancer can get the specialized medical care they need from a multidisciplinary team of medical professionals. The hospital offers support groups for patients and loved ones affected by breast and bladder cancers.

### Women's Services

Summerlin's women's health program offers a comprehensive range of services including maternity care, mammography and breast procedures, gynecological surgery and bone density testing.

\*ER Reserve should be used only if you decide your care can wait until the time you select. Do not wait if your symptoms or conditions worsen or if you need immediate care since delays may complicate your condition. # Valley HOSPITAL MEDICAL CENTER

## About Valley Hospital Medical Center

Located in the Las Vegas Medical District, Valley Hospital has been caring for residents and tourists for more than 40 years. The hospital offers 24/7 emergency care, and is designated as a Primary Stroke Center by The Joint Commission and as a Chest Pain Center with PCI by the American College of Cardiology for its rapid diagnosis, intervention and treatment of strokes and cardiac issues, such as heart attacks.

As a tertiary facility, Valley Hospital offers advanced cardiac services, such as open-heart surgery, balloon angioplasty and cardiac catheterizations. Its neurosciences program offers a wide range of services, including stroke care, neurosurgery, interventions such as coiling for brain aneurysms and an inpatient acute rehabilitation unit to help patients recover from traumatic injuries, stroke and other diseases.

A variety of surgeries are also performed within its 11 surgical suites. In addition to cardiac and neurosurgeries, other specialties include abdominal, bladder/kidney/prostate, spine, oncology, orthopedic, colorectal, vascular and general surgery. A variety of endoscopic procedures are also performed within the surgery division.

Valley Hospital offers several key outpatient services,

including a wound healing and hyperbaric medicine center to address hard-to-heal-wounds.

## Dedicated to the Community

Valley Hospital supports a number of nonprofit organizations including the American Heart Association® and the United Way of Southern Nevada. Employees also volunteer their time to benefit a wide range of healthcare, civic and community-based organizations.

## Education

Valley Hospital offers a Graduate Medical Education program (accredited by ACGME) in the areas of internal medicine, family medicine, neurology and orthopedic surgery. The hospital also offers a traditional internship program, along with fellowships in gastroenterology and pulmonary/critical care. Hospital employees also serve as clinical preceptors for students in nursing, therapy, pharmacy, dietary and emergency medical services (EMT) programs.

Valley Hospital is also home to a Pharmacy Residency program and over 600 multidisciplinary clerkship and internships offered annually, focusing on evidence-based clinical pathways that research has shown to be effective with most patients.

# Valley Hospital Boosts Local Economy in 2018

Valley Hospital is proud to contribute to the health of the community and boost the local economy. ## Valley Hospital 2018 Milestones

Valley Hospital completed construction on an 18-bed, medical surgical unit with all private rooms. The hospital also completed renovations to replace its two Cardiac Catheterization Labs. The new labs offer advanced technology for electrophysiology and interventional cardiology procedures.

In addition, the hospital updated the patient reception/waiting area creating a space that provides a more enclosed/private environment for patients' families who are waiting during procedures.

A leader in stroke and neurological care, Valley Hospital is expanding its neurointerventional capacity with the addition of a second interventional radiology lab that will allow for the treatment of emergent patients much faster with advanced technology.

## Valley Hospital Specialty Services

### Behavioral Health Services

Valley Hospital offers inpatient behavioral healthcare for adults ages 18 to 64.

Psychiatrists, nurses, social workers, activity therapists and mental health technicians focus on developing customized interdisciplinary treatment plans that meet each patient's needs. An attending physician will evaluate each patient's need for medication, and will discuss medications with the patient and appropriate family members before treatment begins. Individual, group and family therapy are available.

### Emergency Department

Valley Hospital is designated as a Primary Stroke Center by The Joint Commission and as a Chest Pain Center with PCI by the American College of Cardiology. A rapid medical evaluation area is also included. Plus, ER Just Got Easier at Valley Hospital. Wait times are available online and ER Reserve\* is available so patients can request a time in the ER for non-life-threatening illness and injury.

### Neurosciences/The Stroke Center at Valley Hospital

Established as a Primary Stroke Center in 2007, Valley Hospital's neurosciences program continues to grow. Neurosurgeons and interventional radiologists have the ability to perform complex neurosurgery and endovascular procedures. The biplane angiography suites are used to treat intracranial aneurysms and carotid disease. The program includes interventional radiology services, an inpatient acute rehabilitation unit and a neurology residency for physicians.

### Surgery

Valley Hospital surgeons and staff work closely together to provide an optimal surgical experience for all patients and their family members. Among the surgeries performed at the hospital are abdominal bladder/kidney/prostate, breast, cardiac, colorectal, da Vinci® robotic, gynecological, oncology, neurosurgery, orthopedics, spine, vascular and general surgeries.

The surgical department is home to 32 all-private surgical post-op rooms on a newly renovated nursing unit. The department also boasts an 18-bed surgical preparation area and a 20-bed post-anesthesia care unit.

\*ER Reserve should be used only if you decide your care can wait until the time you select. Do not wait if your symptoms or conditions worsen or if you need immediate care since delays may complicate your condition. If you are unsure of your condition or if your condition worsens, then please go to the nearest emergency room or call 9-1-1. Some insurance plans may not cover an ER visit if it is deemed urgent care or may apply a different copay. Please check your covered benefits with your insurance provider for details. ER Wait Time is an average provided for informational purposes only.

## Expansion Projects

The Valley Health System continues to add programs and services to meet the communities' growing health needs. The following projects have been completed at The Valley Health System hospitals:

### Centennial Hills Hospital

- Expanded its post-partum unit to accommodate the continually growing market.

### Henderson Hospital

- Opened the first freestanding emergency department, ER at Green Valley Ranch, an extension of Henderson Hospital.
- Opened an eight-bed, Level II neonatal intensive care unit (NICU) to serve newborns that require additional, specialized medical care.
- Completed the third floor expansion, with 28 private patient rooms, bringing the total bed count 166.
- Opened an Advanced Wound Care Center, with four treatment rooms and two hyperbaric oxygen chambers.

### Spring Valley Hospital

- Added 72 private rooms, increasing the bed count to 364, making it the second largest hospital in The Valley Health System.
- Broke ground on the freestanding emergency department, ER at Blue Diamond, an extension of Spring Valley Hospital

### Summerlin Hospital

- Opened a new 36-room adult oncology unit featuring private rooms.
- Completed the expansion of its Labor and Delivery and Post-partum units adding a third C-section suite, four triage bays and a 17-bed NICU renovation.

### Valley Hospital

- Completed the third-floor expansion, adding 18 private patient rooms.
- Completed the first phase of the Cardiology/Cath Lab modernization project replacing and updating two of its Cath Labs with advanced technology for electrophysiology and interventional cardiology procedures.
- Expanded neurointerventional capacity with a second interventional radiology lab with advanced technology.
