» In accordance with **NRS 629.061.1 & NRS 133.055**, the following is the Desert Springs Hospital Medical Center policy for requesting medical records for a **deceased patient**:

1. When requesting medical records for a deceased patient, one of the following must be presented:
   - Handwritten will – A hand written will is valid in Nevada if there is a sole beneficiary and it is signed and dated by the decedent. It is assumed (and accepted) that the sole beneficiary is Executor. A non-interested third party must sign an affidavit stating that the signature of the decedent is authentic. The affidavit must be notarized and executed at the same time of the will and must be on or attached to the will.
   - Regular will – This must state that the decedent was in sound mind, over 18 and not under duress at the time of the wills creating. All devices in the will to the beneficiary are void unless there are two other competent witnesses to the will.
   - Special Letter of Administration – A special letter of administration can be issued by Probate specifically to authorize an individual to obtain the medical record of the decedent provided that there are no assets in the estate. This process has no cost and takes two days. If there is no valid will, the petitioner must request a hearing with Probate to be named Executor.
   - Probate: If there is no valid will, the petitioner must request a hearing with Probate to be named Executor. It generally takes 2-3 weeks from the time of the application to the actual hearing. You must contact the office of the Probate Court for additional information.
