

1. Do a Google search for "Citrix Receiver for Mac"
2. Click the Citrix Receiver for Mac link in your search results
3. You may see the yellow Security banner at the top of the browser. Left click on the yellow banner and select DOWNLOAD FILE.
4. Click RUN in the File Download dialog box to install
5. Log in to Cerner  
*(Note: If installing on IE 11 continue on to step 7)*
6. All browsers will run Cerner from the SharePoint External link without issue with the exception of IE 11. You will receive a CISCO ALLOW dialog box as well as a LAUNCH ICA OPEN banner located at the bottom of the browser window

7. Click the Open button

8. Sign into Cerner
